

360 DEGREE FEEDBACK FORM

FROM: Frank Tieck – Track Technologies

TO: IT2A

OUR TEAM

How would you describe our team?

Hoe zou je ons team omschrijven?

Responsive and creative. They communicate well, ask for feedback, and suggest useful features beyond basic requirements.

What do you see as our team's strength(s)?

Wat zie je als de sterke punten van ons team?

Strong front-end design sense and user-focused thinking.

Can you describe a situation when our team demonstrated this strength?

Kun je een situatie beschrijven waarin ons team deze sterke punten liet zien?

They proposed accessibility and display options (dark/light mode, color-blind mode, picture mode) during UI reviews, showing attention to real user needs and inclusive design.

OUR TEAM IN THE COLLABORATION

How do you see our team's role in this collaboration?

Hoe zie je de rol van ons team binnen deze samenwerking?

Primary implementers of the app UI/UX and audio feedback.

What is our team contribution to this collaboration?

Wat is de bijdrage van ons team aan deze samenwerking?

Delivering polished UI and audio interactions that present the target device's data clearly.

Prototyping UX options and producing quick iterations for review.

What would you ask our team to help you with (next)?

Waarvoor zou je ons team om hulp of ondersteuning vragen?

Android Auto Implementation, IOS application.

TIPS

Do you see any room for improvement in how our team works (e.g., communication, collaboration, planning, delivery)?

Zie je verbeterpunten in hoe ons team samenwerkt (bijv. communicatie, afstemming, planning, oplevering)?

tighten prioritization and delivery discipline: focus on completing core, requested features before adding extras.

Do you see any room for improvement for our team as an IT partner?

Zie je verbeterpunten voor ons team als IT-partner?

More communication about which functionalities are complete and whether they meet the previously set expectations; which functionalities are not yet done and why; and the timeframe for completing them.

What competences would you recommend our team to develop further?

Welke competenties zou je ons team aanraden verder te ontwikkelen?

Priority-driven product development and sprint planning
