SWOT ANALYSIS

In this chapter I will be doing a SWOT analysis

Background behind SWOT

Strengths

- Take initiative when needed
- Independent learner
- Strong sense of problem solving skills
- Able to work independently and complete challenging tasks.

Weaknesses

- Communication can sometimes be too direct
- Can lose motivation if I don't like a project or the group
- Sometimes I focus too much on fixing something rather than making it compatible with the system design

Opportunities

- Further develop my communication skills during my final years and study especially in internship period
- Gain more experience in building functionalities that allow better compatibility in the system design in the upcoming minor projects and applied ai
- Take on more leadership responsibilities in the future projects if it is possible

Threats

- Work life impacts my student life
- Lack of motivation reducing productivity and performance
- Poor communication cause teammates to feel I am confronting them
- It is difficult to balance multiple responsibilities at the same time.
